FAVOURITE PROJECTS

Gulfsat Sales CRM

Created a archetypal CRM application for a tremendously huge broadband company of Kuwait which ease the whole hectic work flow of management, sales, finance and technical department which reduce the time complexity by 80% and increase the productivity remarkably.

Taqze

Created a cab booking application which provide booking facility in the whole state of Jharkhand, Bihar, odissa and expanding rapidly which ease cab booking and double the growth of company in just few months.

Car spare mart

Developed an amazing and very usefull ecommerce website which deals with selling spare parts of automobiles nearly in half of the Indian region. It has specialised super search filter according to vehicle type, model, category and brand with integrated payment gateway including home delivery feature.
